1. FindIt: Lost & Found · `/api/v1/findit`

Office staff post found items, owners claim them, and staff resolve the post by approving one claim.

Method	Endpoint	Who	What
POST	`/posts`	office staff	Post a found item. Form-data: `title`*, `description`, `location_found`, `found_on`, `images` (up to 5)
GET	`/posts` · `/posts/{id}`	everyone	Browse found items / view one
PATCH / DELETE	`/posts/{id}`	office staff	Edit / delete (not while a claim is pending)
POST	`/posts/{id}/claims`	everyone	Claim it: `{ "message": "proof, 10+ chars" }`
GET	`/posts/{id}/claims` · `/claims/me`	everyone	Claims on a post (staff see all) / my claims
